Replication rules

Create replication rule

Create replication rule

Info

Replication rule configuration

Replication rule name

testReplicationRule

Up to 255 characters. In order to be able to use CloudWatch metrics to monitor the progress of your replication rule, the replication rule name must only contain English characters.

Status

Choose whether the rule will be enabled or disabled when created.

Enabled

Disabled

Priority

The priority value resolves conflicts that occur when an object is eligible for replication under multiple rules to the same destination. The rule is added to the configuration at the highest priority and the priority can be changed on the replication rules table.

0

Source bucket

Source bucket name

test-origin-buck3t

Source Region

US East (N. Virginia) us-east-1

Choose a rule scope

Limit the scope of this rule using one or more filters

Apply to all objects in the bucket

Destination

Destination

You can replicate objects across buckets in different AWS Regions (Cross-Region Replication) or you can replicate objects across buckets in the same AWS Region (Same-Region Replication). You can also specify a different bucket for each rule in the configuration. [Learn more](#) or see [Amazon S3 pricing](#)

Choose a bucket in this account

Specify a bucket in another account

Bucket name

Choose the bucket that will receive replicated objects.

Destination Region

US East (N. Virginia) us-east-1

IAM role

Permission to access the specified resources

Create new role

Choose from existing IAM roles

Enter IAM role ARN

Encryption

Server-side encryption protects data at rest.

Replicate objects encrypted with AWS Key Management Service (AWS KMS)

Replicate SSE-KMS and DSSE-KMS encrypted objects.

Destination storage class

Amazon S3 offers a range of storage classes designed for different use cases. [Learn more](#) or see [Amazon S3 pricing](#)

Change the storage class for the replicated objects

Replication rule created for the bucket to enable cross-region or same-region replication to a designated destination bucket.
